

What We Are All About

- ❖ We believe every individual and every culture matters.
- ❖ We believe that caring about each other is key for ourselves, our organizations, and our society.
- ❖ We stand against all oppression and exploitation. No individual or group of people deserves to be oppressed or exploited. Everyone is worthy of respect.
- ❖ We share a vision of a society where everyone's needs are met—a society that works well for everyone now and across future generations.
- ❖ We cherish our planet Earth and all its life forms, and we work for their preservation.
- ❖ We believe that everyone is capable of good thinking.
- ❖ We have learned that exchanging listening with each other and releasing painful emotions enables humans to heal, to deal with difficult circumstances, and to function at our best.
- ❖ We are committed to reaching across any differences that might divide us to build an inclusive, unified, global climate justice movement that puts people and planet first.
